

No Vandenberg Statement Expected; Stassen Predicts Win

(By Associated Press)
PHILADELPHIA, June 17—Harold E. Stassen conceded today he will be third man on the first presidential nominating ballot at the GOP convention opening here Monday.

But former Minnesota governor told a news conference shortly after his arrival he remains confident he will win the nomination by the ninth ballot.

"I am here to lead the liberal and younger forces of the Republican party in a fight to win," Stassen said.

"I expect to be in third place on the first ballot and in first place on the last."

Stassen said he thinks it is "a close question" whether Gov.

Thomas E. Dewey of New York or Sen. Robert A. Taft of Ohio will be in the lead on the first convention roll call.

Stassen was asked how he views the possible candidacy of Sen. Arthur Vandenberg of Michigan. Vandenberg is being boomed in certain quarters as a dark horse candidate in the event of a deadlock.

"I consider Sen. Vandenberg to be one of the outstanding statesmen of the Republican party," Stassen said.

"I make no attempt to anticipate what his moves will be in this convention."

Stassen poked at Dewey's recent invasion of Maine with the assertion that he, and not the New Yorker, will get the majority of Maine's presidential votes.

Stassen was asked if there is any truth in rumors that he might accept second place on a ticket headed by Taft. He said that since he first developed delegate strength, rumors had linked him with almost every rival in the field.

"I continue to be a candidate for the presidential nomination and will be when the roll is called at the convention," he declared.

Close associates of Senator Vandenberg said unless he changes plans, he will permit the presidential voting to take its course without any statement from him.

Vandenberg's position in the nominating contest was among the principal topics of conversation as delegates moved in for the 23d try of the Republican party to nominate a President.

Amid indications that Gov. Thomas Dewey generally is looked upon as the man to beat, delegates clustered in hotel corridors to talk about the threat that Vandenberg poses as a dark horse.

From a person close to the Michigan senator it was learned that Vandenberg has adopted a let-see-what-happens attitude toward the balloting, which may begin next Wednesday or Thursday.

This person, who declined to be quoted by name, said the Michigan senator feels he has done everything possible to discourage his nomination. He has said publicly—and privately to picked audiences—that he does not want the honor and doesn't expect to get it.

But Gov. Kim Sigler of Michigan said at the governors' conference,

in New Castle, N. H. he is convinced Vandenberg is "available" for the nomination.

Vandenberg was said to feel that the campaign for a draft movement has gone so far that he cannot now cut the ground out from under those who are in the forefront.

A case in point, cited by the Michigan senator's intimates, is Gov. James H. Duff of Pennsylvania.

Duff has not made any secret of the fact that he is for Vandenberg and wants to swing the 73-vote Pennsylvania delegation to the Michigan senator after a few favorable son votes for Senator Edward Martin.

Vandenberg personally pleaded with Duff several weeks ago not to

adopt this course. But the Pennsylvania governor went ahead.

Now Vandenberg is said to feel that, though he has discouraged the movement, he cannot with good conscience leave Duff high and dry by any further statement of his position.

Those who want the Michigan senator to become the nominee hailed this as a boon to their campaign to draft him. They always have said that if Vandenberg just would not step on their necks at the wrong time they would have a good chance of pushing him across.

There were many in this flag-decked convention city, however, who felt that it is about all over with the shouting. Their view—and it was expressed widely by delegates and party leaders—is that

Dewey is in such a commanding position that he never will be headed in the voting.

Against this, the advocates of Harold E. Stassen clung grimly to the belief that their favorite somehow can crash through to the nomination. They were a little hard put, however, to blueprint any such result. Stassen was due here today to shed more light on this situation.

Rep. Clarence Brown of Ohio, managing the campaign for Senator Robert A. Taft, was disturbed enough by rumors Vandenberg might support Dewey that he called a news conference yesterday to deny them.

Brown said one of his close friends—"a very reliable source"—said he had it from Vandenberg himself that there was nothing to it.

Senator Young (R-ND) lined up with three of his colleagues who have made it plain they want Vandenberg. The North Dakota senator said he told Vandenberg the Michigan senator is second choice of the 11-vote delegation from his state, pledged to Stassen on the first ballot.

Previously Senators Cooper (R-Ky), Gurney (R-SD) and Reed (R-Kan) said they hope Vandenberg will be the nominee.

Republican delegates began getting the preliminaries out of the way for the convention which opens here Monday.

The platform committee, headed by Senator Lodge (R-Mass), split up into nine groups, to decide what the party shall say about domestic and foreign issues.

Race Issue In Platform Arguments At GOP Meetings

(By Associated Press)
PHILADELPHIA, June 17—The race issue broke in the Republican platform committee today as a delegate from Texas protested that no southerner had been assigned to the subcommittee that will write the GOP plank on civil rights.

Orville Bullington, of Wichita Falls, Tex., arose in the committee session to tell Chairman Henry Cabot Lodge, Jr., that "the south is more interested in this question than anything else." He demanded that a southern delegate be put on the civil rights committee.

Lodge, a Massachusetts senator, told the 104-member platform group that it was in order for members to swap their committee assignments if they desire.

Relinquishes Place
Mrs. Agnes Jones Gifford, South Orange, N. J., immediately announced that she would yield her civil rights committee post to Bullington. The Texan then was assigned to this committee and Mrs. Gifford took his place on the subcommittee dealing with economics and small business.

This dramatic development occurred shortly after the platform committee had organized, electing Lodge as its chairman and designating nine subcommittees to conduct hearings on party platform planks.

When the morning committee session adjourned, Bullington told reporters "it is time the south became a two-party country and we don't want to keep pulling Democratic chestnuts out of the fire."

He told newsmen emphatically he

FRENCH APPROVE GERMAN PROGRAM

Schuman's Government Gets O. K. by 4-Vote Edge; Reds Opposed

PARIS, June 17—The national assembly reluctantly approved today a six-power agreement to set up a semi-independent government in Western Germany. It tacked on six conditions intended to guarantee French security.

Premier Robert Schuman had only eight votes to spare on the final count—300 to 286, with 26 abstentions—after bitter debate in which his government was accused of failure to defend the national interests of France. The Communists and the far Right joined in the fight against the government on the issue.

French approval was the final one necessary to start the new German plan rolling. The other five governments involved—Britain, the United States, Luxembourg, Belgium and the Netherlands—all gave their okays previously.

BOYS' STATE HEAD APPOINTS RIVALS

DELAWARE, June 17—Jack O. Mason, governor of the Buckeye Boys' State, named two youths who were defeated for state offices to his cabinet yesterday.

He appointed Charles D. Montgomery of Euclid, his rival for the governorship, as commerce director. Roger Year, of Euclid, defeated auditor candidate, was named director of industrial relations.

Other cabinet appointments: John Sajo of Lakewood, assistant general; Don Hovan of Cleveland, finance director; Earl "Laf" of Akron, director of taxation; James Marshall of Mansfield, director of unemployment compensation; James Burley of Crooksville, director of education; Leroy Slusser of Marietta, director of health; Kenneth Davis of Hubbard, director of highways; Charles Doctor of Cincinnati, director of public welfare and William Newkirk of Cincinnati, director of liquor control.

FOREIGN AID PROGRAM ON FINAL LEGS

Appropriation Amount Before Conference Committee Today

WASHINGTON, June 17—The multi-billion dollar foreign aid program headed for a final showdown today.

A senate-house conference committee was called into session to decide how much the United States will spend to help 16 European nations, Japan, China and Korea on the road to recovery.

A lively verbal fight appeared certain before the conferees emerge with the finished bill—a compromise between the sharply conflicting senate and house versions. Each chamber still must ratify the conference report but with the rush to adjourn congress Saturday this becomes a mere formality.

Changed Period
The house took the administration's proposed \$6,533,710,228 program, spread it from 12 to 15 months, and in effect whittled off about \$1,433,000,000. Also the house inserted several restrictions on how the money was to be spent.

The senate took a very different view of the foreign needs. It changed the program back to 12 months and restored an estimated \$1,175,000,000 of the house cuts, in addition to knocking out some house restrictions.

The major differences to be settled are these:

(1) The time—whether the program will be a 12 or 15 month program.

(2) European recovery—The senate voted the Economic Cooperation Administration \$4,000,000,000 in addition to \$1,055,000,000 already received. Senator Bridges (R-NH), appropriations committee chairman, says this is equal to a \$550,000,000 boost over what the house gave ECA.

(3) Government and relief in occupied areas—the senate approved \$1,325,000,000 or about \$75,000,000 more than the house.

(4) China aid—The senate voted \$600,000,000 to be spent in 12 months. Of this amount, \$125,000,000 is for military purposes. The house program was \$220,000,000.

(5) Greek-Turkish aid—The senate, \$250,000,000; The house \$200,000,000.

(6) International children's emergency feeding—The house \$40,000,000; the senate \$20,000,000.

(7) The senate set a \$75,000,000 ceiling on the amount of farm machinery to be exported from the U. S. to Europe. The house limit was \$50,000,000.

EAST LIVERPOOL STRIKE STYMIED

EAST LIVERPOOL, June 17—The district-wide tie-up of public transportation today headed into its 11th day after the Valley Motor Transit Co. and its striking drivers were unable to find a solution to their wage differences in a three-hour meeting Wednesday afternoon.

Called to thrash over the company's offer of a \$1.15 hourly rate for the 127 A. F. of L. bus operators, the meeting recessed after 5 p. m. subject to the call of W. W. Powell of Sharon, Pa., commissioner of the federal mediation and conciliation service.

Powell said the meeting produced "no progress of any material benefit."

"The two parties met jointly and separately for over three hours and then the meeting was recessed subject to my call," Powell said. "I will remain here Thursday and probably Friday." He declined to detail the trend of the discussions yesterday.

TRUMAN SCHEDULED IN COLUMBUS FOR 8-MINUTE SPEECH

(By Associated Press)
COLUMBUS, June 17—President Truman pays another visit to Ohio tonight—on the return leg of his cross country jaunt.

He is scheduled to make an eight-minute rear-platform appearance while his special train is being serviced at Union depot.

The train is expected at 11:50 p. m.

It will pass through Ohio on the Pennsylvania railroad tracks, leaving Indianapolis at 8:17 p. m. EST, and arriving at Pittsburgh at 2:50 a. m. Friday. The President plans to be in Washington by Friday noon.

At least one Ohio Democratic leader—State Chairman Eugene Hanhart—expects to be on hand tonight to greet the President.

Hanhart received official word last night that the President would stop in Columbus. Earlier in the day Hanhart and National Committeeman Albert A. Horstman said they were making no arrangements to see Truman because they had no official word he was coming.

Gubernatorial Nominee Frank J. Lausche has no comment.

When asked whether he, Horstman and Lausche would meet the President, Hanhart replied: "If he's there, but Al's going to be in Chicago and Frank had another engagement."

Horstman and Lausche appeared on the rear platform with the President when the presidential train stopped at Crestline, O., enroute to the west coast.

Since then, the President highlighted his trip with the brief but biting attacks on the present congress.

The criticism was contained in talks from the train platform and on visits to large city gatherings. Before he began his trip, Truman said it would be non-political.

Cleveland Clinic Founder Dies at 81

CLEVELAND, June 17—Dr. William Edgar Lower, 81, sole surviving founder of the Cleveland Clinic and a noted surgeon, died early today.

A physician for 56 years, he had not engaged in surgery for several years, but remained in active practice.

Dr. Lower was associated with Dr. George W. Crile and several other medical specialists in the founding of the clinic in 1921. He was a past president of the American Urological association, the American association of genito-urinary surgeons, the Ohio State Medical society, and the Cleveland Academy of Medicine. He also was the author of several technical works.

A native of Canton, O., he was graduated from Western Reserve university's medical school in 1891.

In 1900 he served as acting assistant surgeon of the United States army in the Philippines, and during the first world war served with the Lakeside Base hospital unit in France.

He is survived by his widow and a daughter, Mrs. William J. Engel, of Cleveland.

THIRD VETO IN WEEK IS OVERRIDDEN

Congress Makes History By Slapping Down Railroad Bill

(By Associated Press)

WASHINGTON, June 17—Congress made history today by passing major legislation over President Truman's veto for the third time in four days.

The No. 3 bill is one letting railroads make rate agreements of a kind now barred by anti-trust laws. The house vote was 297 to 102. This was 31 votes more than the two-thirds needed to make the measure law over Truman's objections.

Final action was completed by the house. The senate overrode the veto 63 to 25 yesterday.

Congressional officials said three vetoes slipped down within a week is a record not equaled by any other congress.

Earlier this week congress knocked down vetoes of a social security bill and an appropriation bill transferring the United States Employment service from the Labor department to the Federal Security agency. Both now are law, along with the railroad bill.

The railroad bill says railroads and other surface carriers cannot be prosecuted under the anti-trust laws for getting together and making agreements on rates and fares, provided the agreements are approved by the Interstate Commerce commission. The ICC is the government's agency for regulating railroads.

When Truman vetoed it, he called the bill "inconsistent" with a "vigorous anti-monopoly program."

Last Monday the senate and the house put on the law books over the President's objections a Social Security bill which Truman claimed would bar 750,000 persons from old age benefits.

Yesterday the two branches nullified his veto of a \$975,014,700 appropriation bill which the President rejected because it transfers the United States employment service from the Labor department to the Federal Security agency.

Emmanuel Father-Son Banquet Program Held

Rev. Oliver Grotesfeld of Cleveland gave an inspirational talk based on the story of "The Prodigal Son" when he was guest speaker at the Father and Son banquet sponsored by the Emmanuel Lutheran church Wednesday evening in the church social room.

Two hundred and fifty-nine attended this outstanding event. The tables and room were beautifully decorated with flowers.

Rev. John Bauman, pastor, directed the group singing, with Mrs. W. J. Seeman as the accompanist.

William Adams was toastmaster. John F. Schmidt gave the toast to the sons, while the toast to the fathers was offered by Frederick Krauss.

W. K. Ross, magician, entertained with magic tricks.

The banquet was served by members of the Daughters of Emmanuel.

Out-of-town guests were from Columbus, Cleveland, Leetonia and Columbiana.

Opponents Making Gains On Changes

(By Associated Press)
WASHINGTON, June 17—The house draft bill, already drastically revised, headed into more trouble today.

Opponents said they have "an outside chance" of beating it; supporters predict it will be passed before the day is over, but the day may be a long one.

In two tentative decisions yesterday the house voted to cut the term of draft service from two years to one and to junk plans for a special registration and draft of medical men. Both actions may be subject to later rollcall votes.

The tallest remaining hurdle appeared to be a proposal by Rep. Shafer (R-Mich.) to pass the bill but put off any actual drafting at least until after January 31, pending a stepped up recruiting drive.

This plan has the support of Rules Chairman Leo E. Allen (R-Ill.) and Rep. Harness (R-Ind.), both of whom oppose the draft and have been critical of Army recruiting activities.

Shafer spent yesterday button-holing house members, and told reporters his plan "has a very good chance" of being adopted. It probably will come to a vote late in the day.

Poes of the two-year draft revival measure were jubilant after the house voted 156 to 88 to cut the period of service from 24 months to 12. The amendment was sponsored by Rep. Coudert (R-NY), and drew enthusiastic support from both Republicans and Democrats.

Bruce Carey Dies Suddenly At 66

R. Bruce Carey, 66, died suddenly of coronary thrombosis at 9:30 p. m. Wednesday at his home, 189 E. Third st.

He worked yesterday and apparently was in his usual health. A few minutes after he had gone upstairs to retire last evening his wife found him dead on the bathroom floor.

A son of Charles M. and Effie Campbell Carey, he was born in Salem April 22, 1882, and attended Salem public schools.

In his early life he was employed at the Buckeye Engine Co. plant and later spent several years in the employ of the George H. Bowman Co., having been located at Berea and later at Carrollton.

Returning to Salem several years ago, he had been employed by the E. W. Bliss Co.

Mr. Carey helped organize the Salem Saddle and Polo club and was one of its most active members. He also was a member of Perry lodge, F. & A. M. and of the First Presbyterian church.

On Sept. 30, 1911, he was united in marriage with Miss Eva Moore, daughter of Mr. and Mrs. John C. Moore of Salem, at Mercer, Pa. She survives with one son, Robert B. Carey of Rochester, N. Y.

Also surviving are two brothers, George H. Carey, of Isle of Pine, Cuba, and Donald C. Carey of Warren. He was a brother of Charles H. Carey, first Salem boy killed in World war I, for whom the local American Legion post was named.

Funeral service will be held at 3 p. m. Saturday in the Arbaugh-Pearce funeral home in charge of Rev. David E. Moynihan, pastor of the Presbyterian church. Burial will be in Grandview cemetery.

Friends may call Friday evening at the funeral home.

Sell Cigarettes Illegally

YOKOHAMA, June 17—The books won't balance for two American seamen, Clarence N. Hohmann, 23, of Vallejo, Calif., and Robert W. Talburt, 22, Toledo, Ohio.

A court martial prosecutor charged they obtained 300 cartons of American cigarettes from the crew of a merchant ship, and sold them to a Japanese at \$4 per carton, or a total of \$1,200.

The court found the seamen guilty today of illegal sale of cigarettes. Its fine: \$800 apiece. The two youths are stationed aboard the LST 531 here.

Tea Leaves Are More Reliable

Political speculation is fine, sturdy, unspiced sport, enjoyed by the young, the old and the middle-aged. But when it comes to finding out what's going to happen in politics, tea leaves are more reliable.

Right now speculators are giving off speculations at the rate of one a day. If they were all put in one bag they'd lift a balloon into the stratosphere. All this comes under the heading of good fun, with certain notable exceptions. This is why the exceptions are notable:

They are intended to deceive the public and to influence the delegates to the national convention — both national conventions. Fun is fun, but not everything done in the name of fun is funny.

There's nothing funny about some of the attempts to get handgowns rolling for this or that candidate. It isn't funny when writers with access to public attention pretend that they know absolutely what's going to happen in the convention. They don't know. There have been relatively few conventions, except those which renominated men already in office, when anyone knew what was going to happen. That isn't the way conventions are.

No one objects to speculation for speculation's sake. But speculation for the sake of fooling people is highly objectionable. From now until the last state delegation is recorded in the last roll call in the Democratic national convention next month, beware of speculators who make unequivocal statements.

This Could Be A Fad

William Aufuldish, the fire captain of West Carrollton, O., has broken the ice in what might become a fad. Peevish at the going-over he was being given by hecklers during a warehouse fire, he took off his fire hat, stamped on it and resigned.

Among others who must get fed up with the going-over they are supposed to take cheerfully from hecklers are school teachers, public officials, policemen, baseball players, umpires and committee members. With rare exceptions, they are doing their best, sometimes on niggardly pay kept that way by the hecklers who make life miserable for them, sometimes on no pay at all. But regardless of what they're getting out of it, or whether they're getting anything except grief, they're supposed to be sweet and reasonable about the jeering and sniping of anyone caring to exercise the inalienable American right to yipe and boo.

Perhaps the right really is inalienable. If so, there is a corresponding right to do something about it, the right exercised by Capt. Aufuldish when he walked off the job. The story from West Carrollton does not say that the hecklers promptly pitched in and did a better job. They never do. They can't.

Court Martial Reform

Among the measures still pending in congress is the court martial reform bill passed last Jan. 15 by the house. One of the reasons for the senate delay is the proposal, approved by the house, to make the judge advocate general's department, the army's legal branch, independent of field commanders.

The house added this provision to the bill on the recommendation of the secretary of war's civilian committee of lawyers. It is opposed by Gen. Eisenhower, former Secretary of War Patterson, himself a lawyer and former judge, and virtually all the top army men.

The purpose of the change is obvious. Field commanders have frequently dominated the judgment of courts martial, ordering them in effect to return directed verdicts. In the eyes of the military, to deprive a commander of control over his troops is to weaken his authority. The Army maintains that military justice must also take into consideration the morale of the service and that what might be considered a severe sentence for a civilian would be justified in the case of a soldier who, given a light sentence, might prefer to serve it rather than risk his life in battle.

To veterans and civilians not eager to see field generals continue as courts of last resort, the question naturally arises: Why can't a trained military agency not subject to the whims, prejudices and caprices of field commanders dispense justice while being solicitous of the service's morale?

Sense of Security

Tax figures for 1947 show that Americans spent 20 per cent more for beer and 10 per cent less for distilled spirits than in the previous year.

We don't wonder. The 10-cent beer and the 40-cent minimum hourly wage are about the only two constant monetary factors in this world of zooming prices.

By GENEVIEVE KEMBLE

IT is probable that the spectacular advance upon unusual lines of progress recently set in action by an abrupt and unforeseen turn of events, may be held up by a block of stubborn and distressing hindrances.

Such might arise from enmity, lack of proper ways and means, or even the lowering of vitality or physical health. Jealousy, postponements, delays, could be at the behest of superiors, employers, or elders intent on frustration.

For the Birthday

Those whose birthday it is may find themselves confronted by stubborn obstacles, delays, or a blunder in the putting over of important plans and projects well on the way toward surprising achievement. Lack of proper technique might instigate the withdrawal of promised support from those whose cooperation is vital.

This induced by blunder, physical handicap or a spirit of enmity, jealousy or other sinister intent, causing loss, postponement and impediment.

Stubbornly "holding the fort" until more benign winds blow away obstructions or rancor, might turn the tide toward security and ultimate progress. Persistence, fortitude and patience are advised.

A child born on this day may be slow and undisciplined to attack blocks and handicaps, possibly through lowered vitality, or other form of impediment. Safeguard health and family interests.

ONE MAN'S OPINION

BY WALTER KIERNAN

The battle will be joined in Philadelphia any minute now and the whole city is seething with calm.

The managers of three candidates are in town to test the lights, cameras and makes and the makeup men will arrive Sunday with the stars and cast.

Dewey's headquarters will have a fashion show, two hours of music a day and free postcards. . . I understand Stassen will counter with a variety show, coverdish supper and bubble gum for all.

Vandenberg's headquarters hasn't programmed anything. . . just a big sign for the door which says "if you insist. . ."

The Taft people are very quiet. . . like people expecting a long-distance call from Kate.

But I think we're going to be very comfortable here. . . the two strangers in my room look like nice fellows and have already let me match for the bed.

I lost but now they're going to let me match for the bill.

The hall of the hitch-hiker has led to a reign of irritation for the driver.

People used to chew each mouthful to aid digestion. Now they do it to get their money's worth.

Folks already are looking up vacation places they know darn well they can't afford to go this summer.

Guarding Your Health

Protection From Rickets

By HERMAN N. BUNDESEN, M.D.

RICKETS is a condition due to lack of vitamin D, sometimes known as the "sunshine" vitamin. Formed in the body itself in the presence of sunshine, it is essential to strong muscles and good general health. Without it, neither calcium nor phosphorus can be used by the body.

In consequence the bones are softened to the point where they cannot do their job of supporting the weight. For this reason, the baby with rickets is likely to develop bow-legs and other deformities. He also has weak, flabby muscles, sweats a great deal and grows cross and irritable.

Two Weeks Old

Of late years babies have been protected against this disease by the giving of preparations containing vitamin D, beginning when they are about two weeks old. Sometimes, particularly in the case of premature babies who are more susceptible to rickets than those born at full term, it is started earlier.

Recently a cheaper and more convenient way of doing this has been discovered.

Studies have been carried out not only on animals, but also with infants, which show that it is possible to protect normal babies against rickets for a period varying from six to twelve months by giving them a series of injections of vitamin D in oil. The injection is given into a muscle.

It is suggested that the best time for the use of this preventive measure is on the eighth day after birth. At first, 25,000 units of the vitamin D were employed; later on, this was reduced to one-fourth of this amount. However, in order to be more certain that the rickets will be prevented, it is recommended that 12,500 units be given to protect the infant against rickets, especially when it is living in a region where, during the fall and winter months, sunshine is greatly reduced. The smaller dose may be used in climates where exposure to sunshine during the fall and winter months can be more liberal.

Full Dose

Premature infants are given the full dose of 12,500 units during the winter period and the same dose during the summer period.

There would seem to be no objection to repeating the injections of vitamin D each year during the latter part of September or the early part of October.

It would appear from the studies already made that such a method of preventing rickets is quite satisfactory and should be used of additional studies confirm the studies already reported.

QUESTIONS AND ANSWERS

J.R.: Will you please tell me if an enlarged liver ever returns to its normal size? Is it dangerous?

Answer: An enlarged liver may return to its normal size; however, this depends on the cause of the enlargement.

Some cases of enlarged liver are serious, such as those due to cirrhosis or hardening. The liver may also become enlarged as a result of heart failure, due to congestion of blood in the liver.

A thorough study should be made to determine the cause of the difficulty; then proper treatment may be suggested.

Release Money In
Youngstown Bank

LOUISVILLE, Ky., June 16—The U. S. circuit court clerk here today has under orders to release to the Youngstown National bank of Youngstown, O., \$9,749,000 impounded in a patent infringement suit involving the Cold Metal Process Co.

Judge Shackelford Miller, Jr., late yesterday ordered the money released after he said a long suit involving patents had been settled.

In 1944, Judge Miller ruled that two patents held by the Metal Processing Company were valid. The government contended that the patents were void.

Meanwhile Judge Miller issued an order impounding the \$9,749,000 that companies using the patents without licenses had paid the Cold Metal Process Company.

The U. S. Supreme court refused to hear an appeal on the case.

Judge Miller stated he understood the government claims the money is due it under a war-time act regulating patents and profits. He added that government attorneys indicated they would attempt to collect this money through a suit now pending in Cleveland involving the Cold Metal process and 21 concerns holding licenses to use the patents.

The Youngstown National bank at Youngstown is trustee for funds received for patents.

The Nation Today

BY JAMES MARLOW

WASHINGTON, June 17—Time is short. . . But the human impulse to say a few thousand well-chosen words is strong.

The house is debating the draft bill. Nobody doubts the outcome.

The house will pass it, just as the senate did. We'll have a draft law.

The mind of every house member already must be made up on how he'll vote. Speechmaking at this point won't change his mind.

At least, it shouldn't. The draft problem has been kicking around congress for months. Every member has had a chance to look into it carefully and think about it.

He's had a chance to read all sides of the argument. He's talked with other Congressmen. And he's drowned in mail from the folks back home.

SO IT WOULD be quick and easy if the house just voted and got the draft out of the way, except maybe for trying to make a few changes in the bill.

It would help, too. The house has plenty of work to do, plenty of other bills to tackle. It's trying to finish up by the end of the week.

Everybody knows the less speechmaking, the more work can be done. But this doesn't stop a congressman from getting up and cutting loose.

It wouldn't be congress without a debate. So in relays congressmen parade up to the microphone and tee off.

"My dear colleagues. . ." One of them starts. He's against the bill. For or against, the parade goes on. Each congressman gets four or five minutes. He waves his arms, pounds the table, juts his chin, shouts.

The visitors to the galleries, seeing the house in action for the first time, lean forward, entranced. Not so the newsmen in the press gallery. They sit there every day, looking down at the same sight, the same heat, the same speakers on other subjects.

Most of the speakers wander up, say their say, and wander back to their seats without applause from their fellows waiting for a chance to do the same thing.

Once in a while a certain congressman gets a good hand before he starts and when he finishes.

Dewey Short of Missouri, for instance. Short, a Republican who's against the bill, is probably the best speaker in the house.

When he got up to the microphone yesterday, congressmen who had been outside smoking threw away their cigarettes and flocked in to hear him.

THIS WAS A TRIBUTE to Short's eloquence. It didn't mean his listeners were crowding in to be persuaded by what he said.

When the house put up the shutters for the day yesterday, this writer called one of the congressmen who had been listening all day. "Do you think anyone's mind was changed by all the speechmaking?"

"Not one," he said. "Why then bother to talk? Maybe three reasons:

1. Some congressmen feel so strongly about the draft, one way or the other, that they have to say something.

2. Some probably just like to hear themselves talk.

3. And some want to get on record so they can mail a copy of their speech to the voters back home. It doesn't cost them a lot to mail their speeches back to the voters in their district and all 435 seats in the house are at stake in this year's elections.

It may cost a congressman \$13 to \$14 to have 1,000 copies of a page-long speech in the congressional record run off for him by the government printer.

For each succeeding 1,000 copies, the cost is less. And the congressman can mail the speech postage free by enclosing it in a franked envelope.

The real job on this bill, or any bill, comes when the time arrives for offering amendments, or changes.

The speechmaking always precedes the offering of amendments. The house votes on each amendment. If all amendments are voted down, the bill sails through untouched. By adding amendments, the house strengthens or weakens a bill.

PAINESVILLE, June 17—In an old-fashioned posse chase, a 30-year-old robber was captured in a woods outside the city last night after he robbed a tourist camp of \$50, sheriff's deputies, reported. The man said he staged the holdup to obtain money to finance his way to Buffalo, N. Y., where he hoped to find work.

4-H Club News

Members of the Columbiana County 4-H club and other 4-H club members interested in beef cattle, attended a judging meeting recently at the George Phillips farm south of Salem.

Thirty-one club members took part in the judging contest. Four rings of fat steers from this year's club calves were judged. About 30 interested parents and club advisors also attended the meeting.

Virgil Graves, manager of Crocker City farms, discussed the characteristics of a good steer and made the final placings on each ring of steers judged.

Club members with best record on the placings were Willard Stamp, R.D.2, Slem, a member of the Just Rite club, and Charles McKenzie, R.D.1, Wellsville, a member of No. 18 Victory club. Both boys had a total of 370 points out of a possible 400 for the four rings judged.

Goshen Better Growers

A ball team was organized when members of the Goshen Better Growers 4-H club met with Harold Courtney Monday evening. Eugene Malmesbury, advisor, was in charge.

Nine members answered to roll call and Dale Wallace was a visitor. Refreshments were served by Mrs. Frank Courtney.

The next meeting will be held with Omar Shreve Monday evening, June 28.

New Garden Farmerettes

The New Garden Junior Farmerettes met Monday in the school house. There were 22 members present. The New Garden church was voted to be the place of the following meetings:

Hostess, Ruth Hayes and Mary Lou Webber, served lunch. The next meeting will be held June 29. The club held a penny supper yesterday at the Public square.

Try, Try Again

The Try, Try Again 4-H club held a meeting at the home of Kay Hill. The club talked about painting and lettering mail boxes, craft work at camp and played games. Lunch was served.

The next meeting will be Thursday at the home of Patty Tullis.

FILE COMPLAINTS WITH COLUMBIANA COUNCIL OVER SEWAGE PLANT ODORS

COLUMBIANA, June 17 — Complaints were heard by council Tuesday evening from a number of west end citizens that odors from the sewage disposal plant have become very disagreeable.

Members of council and the board of affairs will visit the site to inspect conditions and will consult with the municipal sanitary engineer, C. C. Hommon of Canton, on measures of relief.

The disposal plant was installed in 1913 and its capacity was increased some 15 years ago, but it appears now to be overtaxed by the growth of the community in the years since. The board of affairs has given some consideration to a project of a new plant at a new location.

Legion Granted Streets
The Legion post was authorized to make what arrangements it could with the state highway department for possible detours during the fair

it plans to have on Main st. Sept. 9, 10 and 11. It was reported to council that Route 7 will be closed within two weeks to begin construction of the overpass east of town, when Duquesne and Main streets will be used for detoured traffic. Diagonal parking on the west side of Main st. will be permitted to continue for the present.

Advertisement for bids was ordered for repairing and putting seal coats on East and West Friend, James Pearl, Herber and Prospect streets, the work to be completed by Aug. 14.

Street Vacation Opposed
Property owners who object to the vacation of a short section of Prospect street from Court street to

the Y. & E. Railway, which has been acquired by quit claim deed as part of a factory site, were left to seek a court adjudication. The late Leo Sponseller, who laid out that part of town, had never obtained acceptance of the street by the municipality, but it is contended that his intent was clear and that the deed is no valid.

The police department will begin July 1 and continue through the month its annual check of motor vehicles for defects.

Clipper aerie, F. O. E., will be

represented at the state convention in Cleveland Thursday through Sunday by William Dalrymple, John Grover and George Case.

The Canton Hoovers will be the opponents of the Columbiana Youngs at Firestone park Sunday afternoon.

L. L. Class of the Presbyterian church will have a picnic supper at 3 o'clock Friday at Firestone park. Wide Awake class of Grace Evangelical and Reformed church will have a party at the church Friday afternoon at 2:30. Hostesses are Mrs.

Ed. Funkhouser and Mrs. Byron Snyder.

The men of Jerusalem Lutheran church have been invited to be guests of Holy Trinity Lutheran Church in Salem Friday evening.

"Mixing and Grinding

Electrically

Saves Me About

200 Hours a Year"

says

Lawrence Kruckeberg
of Greenville, Ohio

For the past eight years, Mr. Kruckeberg has processed about 100 tons of feed per year for 30 head of Brown Swiss cattle, 100 hogs, 1000 chicks and 200 laying hens.

He estimates: "I save up to 750 miles per year in travel and during the busy season I can mix and grind my feed in the evening."

Requiring little attention, an automatic electric feed grinder can save time and work on your farm too ... while the feed is grinding you can be doing other work around the barn.

For further information on this and the many other ways cheap electricity can save time and work for you, see your county agent or vocational agricultural teacher ... our rural representative, too, will be glad to help you in planning for greater efficiency and economy through use of electricity. Just call or write our nearest office. There is no charge or obligation for his services.

A Friend in Need

Marooned by flood waters in Cynthiana, Ky., a Kroger driver put himself and his truck at the service of the community. He spent two days moving personal property and furniture of flood victims to safety, thus preventing thousands of dollars of loss. This service was unusual only because the opportunity was unusual. Kroger people are always ready to serve... in times of crisis or calamity.

UN Doing Good, Claim

CLEVELAND, June 17—The United
Nations deserves praise for its
work in three major disputes, Frank
P. Corrigan, former U. S. ambas-
ador to Venezuela, said yesterday.

"We must not forget," he told
Western Reserve university alumni,
"that despite its highly publicized
setbacks or failures, the United Na-
tions is holding in suspension three
wars, any one of which might de-
velop into a major conflict—India

league vs. Israel.

Offer 11-Cent Raise

BARBERTON, June 17—The Sun
Rubber Co. today offered to grant
its striking employees the rubber
industry pattern of an 11-cent hourly
wage increase.

Firestone Tire & Rubber Co. and
the CIO-United rubber workers
agreed upon that figure in a con-
tract signed last Saturday. The
pact was the first between the union
and the "big four" companies of the
industry.

About 1,225 Sun rubber workers
have been idle in a dispute which
closed the plant May 9.

End Atomic Labor Woes

OAK RIDGE, Tenn., June 17—A
three-months labor dispute was
ended last night when atomic lab-
oratory workers voted to accept a
new work contract calling for an
average of 15½ cents an hour wage
increase.

The contract with increases rang-
ing from 6½ to 40½ cents for 875
employees of Oak Ridge national lab-
oratory was ratified at a union
meeting by a vote of 271 to 60.

STATE MAY GET MORE FEDERAL AID

Aged People Appropriation May Benefit Ohioans To \$7,200,000 Tune

COLUMBUS, June 17—State welfare department officials said today Ohio may get an additional \$7,200,000 a year from the federal government for needy aged people. Congress recently amended the Social Security law to boost federal benefits for old age pensioners. The increased benefits would amount to around \$5 a month for each of the state's 120,000 pensioners. State legislature, however, must amend the present state law to authorize increases in maximum benefits for the aged. The maximum now is \$50 a month. Welfare Director Charles L. Sherwood conferred today with Karl R. Babb, chief of the state division of aid for the aged, on the distribution of new federal funds. Sherwood said he would contact the federal Social Security regional board in Cleveland to find out the provisions of the new law. He said he understood it became effective Oct. 1, but he needed clarification on this and other points. He said a study also would be made to determine whether special state legislation would be needed for Ohio to take advantage of the increased benefits. The federal government has been matching state funds on roughly a fifty-fifty basis up to \$45. The state has been paying all additional amounts to a maximum of \$50 a month. Under the revised federal law, the government would increase its ceiling for matching funds to \$50. At present 35,000 pensioners in Ohio are receiving the \$50 maximum. Babb said the state hoped to pass on the federal increases at least to the 85,000 pensioners not now receiving the maximum.

Hoover Tells How To Protect Your Home While on Vacation

By J. EDGAR HOOVER
Director of the FBI

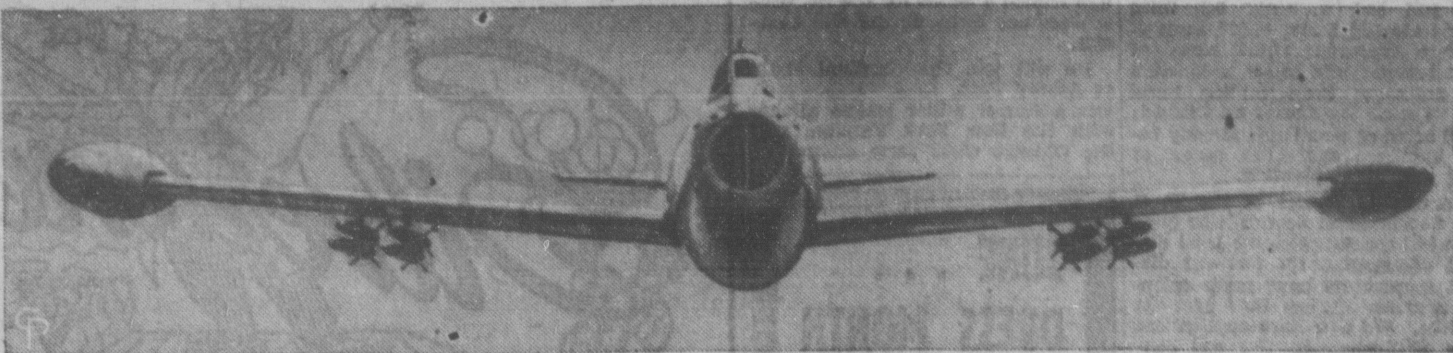

(Written for AP Newsfeatures)
Last year, 373,450 burglaries occurred in the United States, 39.3 per cent of them involving residences. In other words, more than 148,000 American homes were burglarized. This is a rate considerably above 12,000 a month. Every vacationer might well ask himself "Is my home one of the 12,000 that will be burglarized while I am away?"

The variations in structure, layout and location of individual homes make it impossible for anyone to lay down ironclad procedures that will guarantee the safety of any unattended residence. Yet there are certain precautions which might minimize the risk that everyone takes when he leaves his home deserted during vacation time.

1.—Don't let casual, unknown callers at your door or unidentified loiterers in the neighborhood know that you plan to go away.

2.—Do not give anyone the impression that you keep in your home such valuables as money or

From where I sit... by Joe Marsh.

How to Live Longer

Someone asked Pappy Miller last week how he stayed so spry at ninety. Pappy told him:

"Well, sir—when I work, I work hard. When I set, I set loose. When I think, I go to sleep."

According to Doc Hollister, that formula isn't far amiss. "Hard work," says Doc, "never wore out anyone before his time, providing he knew how and when to relax."

Doc himself works overtime, with his daytime patients at the office, and his evening calls. And

when he gets home he takes it easy with a mellow glass of beer and chats with the missus until it's time to go to bed.

From where I sit, relaxing is a fine art—especially in these tense, fast-moving times. And there's nothing like a temperate glass of beer—enjoyed with pleasant company—to restore that easy frame of mind that one needs after a hard day's work.

Joe Marsh

jewelry or other properties that could be converted easily to the use of a thief. Such information as this can quite innocently leak through the neighbors or tradespeople and become a strong temptation to someone who otherwise might never think of burglarizing your home.

3.—Be sure that all door delivery services (such as milk and newspapers) are stopped in advance of your departure to that there will not be any accumulation of material at your front door to advertise your absence.

4.—Make arrangements to have your mail forwarded or held to avoid an accumulation noticeable to passers-by.

5.—Make arrangements with a neighbor to remove daily all circulars or announcements that may be left at your front door.

6.—Be sure that a near-by neighbor (who will not be away at the same time you are) knows exactly when you leave and when you expect to return so that he can report to police any activity he sees around your place during your absence.

7.—Let your neighbor know exactly where you are and how you can be reached so that if there is a burglary the police can contact you if they need information to assist them in their investigation.

8.—Be sure that all doors, windows and screens are securely fastened (with special locks if necessary). A recent police survey in a large city revealed that over 100 doors to business establishments were left unlocked at night. This

kind of carelessness is repeated often in private dwellings.

9.—Within the limits of plausibility, leave your home looking as normal as possible. Try to avoid drawing your blinds and shades in such a way as to give your home a "shut-up" appearance.

10.—If at all possible arrangements should be made to have any particularly vulnerable areas of your dwelling illuminated at night. It should be noted that more than 81 percent of the 373,450 burglaries occurring in 1947 were committed at night. If there is a rear door or cellar entrance located on a dark side of your house where burglars can prow unnoticed, a light might well be kept burning there at night. Few burglars will try to sneak through a lighted doorway or window.

Whether you can arrange to have these vulnerable areas illuminated while you are away will depend on your individual circumstances. In some homes such outside lights are installed with dual switches—one inside the house and one outside, near the garage door or on the outside facing of a rear door, for example. Under such conditions it might be possible to have a neighbor turn the lights on each night and off each morning.

11.—Be sure that all garage doors are closed. Open garage doors indicate your absence.

12.—Do not leave notes to let callers know that you are away.

13.—Do not leave your key in any

of the conventional front-porch hiding places.

14.—If you should return from your vacation and discover that your home has been burglarized, do not make an amateurish crime-scene search yourself. Notify the police at once and let them do all the searching inside and outside the house. Let no one touch anything in the house where the burglar may have left fingerprints, and do not walk around in the yard and destroy any footprints that he may

have left. Leave everything exactly as the burglar left it and give the police a chance to make an intelligent investigation.

If Stomach Gas or Sour Food Taste Robs You of Sleep

Here's How You May Help, Whether You Eat 500 Pounds or 2000 Pounds of Food In a Year

You can't feel cheerful, be happy and sleep well, if your stomach is always upset. As age advances the "old stomach" needs more help. The reason is this: Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains very special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalizers to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health.

called a strike of some 20,000 workers in nine Aluminum Co. of America plants for midnight Sunday.

The union added that the first shift "will not go to work on Monday."

A union spokesman said the decision to strike came after a breakdown of wage negotiations with the company.

The company has offered both the steelworkers union and the AFL-Aluminum workers an "eight per cent wage hike. This, the company said, would make a minimum increase of nine cents and a maximum of 15 cents an hour. The CIO union had asked a package increase of 15 cents an hour.

The company did not give current basic hourly earnings but a spokesman estimated this figure at "around \$1.00 an hour."

The walkout would affect workers in nine plants in nine states. The Alcoa, Tenn., works employing some 8,000 workers in the largest, a company spokesman said. Next in production personnel is the New Kensington, Pa., plant with 7,000 workers. Company spokesmen said 18,500 workers would be affected in the nine plants.

Other plants which would be affected by the walkout are located at Mobile, Ala.; Baden, N. C.; Edgewater, N. J.; Bauxite, Ark., and Detroit.

Soil Conservation Program Benefitting County Farmers

Opening of the spring crop season finds farmers of Ohio in a better position from the standpoint of soil resources than ever before. T. C. Kennard, state conservationist for the U. S. Soil Conservation Service, declared today.

The outlook for the 1948 crop year is encouraging, Kennard said, because of the fine progress farmers of the state have made during the past 12 months, ending March 1, in developing soil conservation programs.

Commenting upon the state figures, W. J. Hays, chairman of the Columbiana Soil Conservation district board of supervisors, said "More and more farmers of Ohio are adopting soil conservation methods as a means of increasing their cash incomes and protecting the land, which is their capital investment, from further depreciation through erosion."

"We feel that cooperators of this district have turned in a progress record during the past 12 months which will compare favorably with that made in any other soil conservation district in the state."

Figures Shown
"Using the special assistance given them on the land by technicians of the U. S. Soil Conservation Service, our farmers will have 10,356 acres of crop land farmed on the contour during 1948. Construction of 42,240 lineal feet of terraces during the past 12 months, the fertilizing and liming of 2,689 acres and seeding of 2,762 acres of grass-legumes in soil building rotations, are just a few of the accomplishments achieved by our local cooperators during the past year."

Kennard's report shows that farmers of Ohio have now organized a total of 64 soil conservation districts, seven of which they voted in during the past 12 months. Judging from the widespread interest shown in other localities, Kennard said, it appears reasonable to predict the state will have approximately 70 districts by July 1. During the past 12 months Ohio farmers developed 2,560 complete

conservation plans with technical assistance of the Soil Conservation Service. This brought the state's current total up to 7,272 plans.

In addition, technicians of the service gave 288 other farmers assistance in starting one or more soil conservation practices. These starting practices usually lead to the development by the farmer of a complete farm conservation plan which fits his program to the land, acre by acre.

Other Assistance
The service also furnished Ohio farmers with engineering and technical assistance on group enterprises and each community drainage projects. During the past 12 months 27 such projects were completed in this state.

At the present time, the State Conservationist reports, soil conservation districts now cover 68 per cent of the state's 22 million acres of land.

Ohio farmers enter the spring farming season, Kennard announced, with these totals of soil conservation practices already applied to the land: 41,600 acres be-

ing farmed on the contour; 73,000 acres contour strip cropped; 191 miles of terraces already constructed; one million lineal feet of diversions built to control water runoff and soil washing; 840 farm ponds already built; 17,067 acres of pasture improved; 17,759 acres of land brought into better production by drainage; three million lineal feet of grass waterways established; 9,300 acres of woodlands already being improved and 3,600 acres of field and gully planting.

Herman L. Reuter of the U. S. Soil Conservation Service, who gives technical assistance to the local district, commented: "I feel our district cooperators have made splendid progress during the past 12 months. We now have applications from 81 farmers in this soil conservation district who have asked for technical assistance."

The Continental Divide, contrary to popular opinion, is not a line drawn through the highest peaks of the Rocky Mountains, but a line dividing the rivers that drain into the Atlantic from those that drain into the Pacific.

Named Cardinal Scout

SANDUSKY, June 17 — Jerry Katherman, 25, Assistant High school athletic coach here, today was named a Scout for the St. Louis Cardinals farm during the summer.

He will join the Cardinal chain at Asbury Park, N. J. Katherman was a former minor league pitcher with the New York Yankees and the Chicago Cubs farm chains.

SALEM JUNIORS WIN OVER HANOVERTON

The Salem Junior Merchants blossomed out with an 8-7 victory over the league-leading Hanoverton Merchants at the Salem A. C. park Wednesday.

It took 14 hits to do the trick, but the Juniors passed Hanoverton for good in the eighth and hung on tightly to win.

The Lisbon Merchants play the Salem Seniors tonight at the park.

The mighty slugger of the Boston Red Sox, currently leading all major league batters with a cool .408, expressed doubt early this spring that he could top .350 because of two things—the "Boudreau shift" and night baseball.

But the box scores show that Ted has hurdled these obstacles this season. In fact overcame them so thoroughly that in addition to his pace-setting batting mark, he also is the No. 1 man in the American league in hits, runs, runs batted in and doubles. And he is second in home runs.

Ted had a perfect day at bat yesterday, four for four. Two of his hits went to left field. One was a double. The other cleared the left field fence for his 13th home run.

The blows came against Boudreau's league-leading Indians and helped the Red Sox defeat Cleveland and Bob Feller, 7-4. It was Feller's seventh loss against five victories. He hasn't won a game since May 19.

The Detroit Tigers ran their winning streak to six straight games with a 2-1 victory over the Philadelphia Athletics in 11 innings. Young Art Houtteman, who has been losing some tough games for the Tigers, finally won a close one, outpitching Lefty Lou Brissie. The 24-year-old Philadelphia rookie had a one-hit shutout through the first eight innings.

The victory moved the fourth place Tigers to within three games of the second place A's. They trail the third place New York Yankees by two.

The Yankees nipped the White Sox, 3-1, in Chicago to even the two-game series at one victory apiece. Allie Reynolds went the route for the first time since May 11. He allowed only seven hits in gaining his seventh victory.

The Pittsburgh Pirates climbed into a tie with the Boston Braves

OHIOANS CAPTURE HONORS IN AAU BOXING TRIALS

Olympic Tryouts Topped By Entries from Ohio; Cotton Impressive

TOLEDO, June 17—Ohioans monopolized the U. S. central regional olympic boxing trials today with eight survivors in the championship round.

One of the Buckeye state "upstarts" leading the pack was Charles Cotton, 145-pounder from Toledo, who staged the biggest upset of the meet's semi-final round last night by knocking out Gene Linscott, 147, Grand Rapids, Mich.

Linscott, international golden gloves welter champion, was counted out of the running at 1:30 of the second round.

Wallace Smith, 135, Cincinnati, National A. A. U. lightweight champion, fought his way into tonight's final round with a technical knockout over Bill Garza, 135½, Detroit, at 1:37 of the second round.

Cleveland led the Ohio contingent with three survivors, featherweight Houston Brown and Bantamweights Mickey Mars and Tony Majorana.

Brown, 1947 national A. A. U. junior lightweight champ, won a K. O. over Al Ferras of Toledo at 1:26 of the third round. Brown weighed 127; Ferras 126½. Mars, 118, outpointed Bob Holliday, 118½, Cincinnati, former Chicago Golden Gloves flyweight king, and Majorana, 116, dethroned Tom Bishop, 118, Louisville, Ky.

National A. A. U. welterweight champion, Dick Guerro, 144, Chicago, sailed into the finals with a decision victory over Homer Branch, 144, Kalamazoo, Mich.

for the National league lead when then trounced the New York Giants, 11-5, while the Braves were beaten by the Cubs 8-5, in Boston.

Home runs by Johnny Hopp and Wally Westlake, and four Giants errors, helped the Pirates.

Home runs by Ed Waitkus and Andy Pafko and some good relief pitching by Emil Kuhn enabled the Cubs to gain their first victory over the Braves in eight games this season.

Two night games were played. The Brooklyn Dodgers edged the Cincinnati Reds, 4-3, and the St. Louis Browns nosed out the Washington Senators, 6-5.

Bobby Adams, Reds second baseman, was injured in the fifth inning when Dodger Catcher Gil Hodges slid hard into him while breaking up a double play.

A scheduled night game between the St. Louis Cardinals and the Phillies in Philadelphia was postponed because of rain.

YESTERDAY'S RESULTS
National League
Pittsburgh 11 New York 5.
Chicago 8 Boston 5.
Brooklyn 4 Cincinnati 3.
St. Louis at Philadelphia, postponed, rain.
American League
Detroit 2 Philadelphia 1 (11 innings).
New York 3 Chicago 1.
Boston 7 Cleveland 4.
St. Louis 6 Washington 5.

TOMORROW'S SCHEDULE
National league — St. Louis at New York; Chicago at Brooklyn; Cincinnati at Boston (night); Pittsburgh at Philadelphia (night).
American league — Washington at Chicago (night); New York at St. Louis (night); Boston at Detroit (night); Philadelphia at Cleveland (night).

Batting
Ted Williams, Red Sox—scored his batting average to .408 with a perfect day at bat—four for four as the Red Sox defeated Bob Feller and the Cleveland Indians 7-4.

FELLER'S LOSSES ARE BLOW TO TRIBE

Indians Wonder How Long They Can Stay On Top Without Robert

CLEVELAND, June 17—The Cleveland Indians still held their three-game first-place lead today, but the big question was how long they could remain there while Bob Feller continued his losing ways.

The Tribe's erstwhile slump-stop-

per hasn't won a game since May 19, and absorbed his fifth straight defeat yesterday as the Boston Red Sox pounded out a 7 to 4 win.

Since May 19, Feller has started six times, has been knocked out of the box and defeated on five occasions.

Starting against the Red Sox yesterday for the second time in a week, he gave up two runs in the first inning, another in the third and four in the seventh when Ted

Williams and Bobby Doerr slammed homers.

Williams virtually sounded the death knell for the "Boudreau shift" by hitting to left field three times. After a first inning single, he twice doubled to left and hit his home run over the left field fence 365 feet from the plate. He walked on his other appearance at the plate for a perfect day.

Joe Dodson held the Indians to only three hits in the first seven

ninth. He gave up three hits and two runs in the eighth and another run on a single and three walks in the ninth before being relieved by Dave (Boo) Ferriss.

The V. F. W. hardball team will play a game at 3 p. m. Sunday against the Salem A. C., following the termination of the Dads of Foreign Service Veterans convention, at the Salem A. C. field, east of the city limits.

MACKENZIE'S Column

BY JAMES D. WHITE
AP Foreign Affairs Analyst
(For Dewitt Mackenzie)

WHETHER HE intends it or not, President Truman's remarks last week about "Old Joe Stalin" could reopen the question of a meeting with that particular Joe.

This has been in abeyance since the Potsdam meeting three years ago, which left much to be desired from many standpoints.

Since then, President Truman said he has asked Premier Stalin to come to see him in Washington, and Stalin has stayed away. It has been widely inferred that neither party has been interested in going like the mountain to Mahomet.

Last week when Truman was talking about Stalin he tolled in a remark that the latter is a prisoner of the Politburo in Moscow.

Checking on this at the State department, reporters found an air of surprise and a prevailing impression that Stalin is the Politburo's boss, not its prisoner.

Now Truman said absolutely nothing about seeing Stalin, but let us look into what his friendly reference could mean—bearing in mind that the next day at Berkeley he listed Soviet breaches of faith in detail and declared once more this country's peaceful intentions.

IN DOING SO, he made the statement that America is not waging cold war, despite the way that expression has worked itself into the American idiom since the Truman Doctrine of containing Communism was laid down more than a year ago and became the core of America's bipartisan foreign policy.

What Stalin thinks of all this may not be too important, especially if it is true that he forms his policy toward America by balancing America's own policy against her ability and willingness to back it up. What Stalin thinks may not be the point.

The point may be what the American people think, this being an election year.

Truman, long pledged to carry on in the footsteps of his predecessor, the late Franklin D. Roosevelt, may be following in his master's footsteps. In FDR's own words, he used to return, at such times as this, to a political position "just a little left of center."

Continued out of this column last issue

Dewitt Mackenzie
been interested in going like the mountain to Mahomet.

trumpeting of Carroll Reece that the President is bidding for the Communist vote, let us proceed on the assumption that Truman figures the country would not take unkindly to better relations with Russia.

If this is so, a meeting with Stalin is conceivable, and such a meeting is easier because of what the President said last week. If it is the Politburo and not Stalin who is behind all the things Russia does, Stalin somewhat exonerated of these same things.

How such a meeting would be sandwiched into an election campaign is for those interested — if anyone is — to figure out.

Among other reasons, there could be two political reasons for a general shift toward better relations with Russia. One is the responsibility which Republicans share for the bipartisan foreign policy because of their congressional majority since 1943.

The other as mentioned last week by James A. Farley, former Democratic national chairman, Farley said that the chances of Henry Wallace, third party presidential candidate, "will go up and down as the apparent danger of war increases and decreases."

"I don't think there is any danger of war," said Farley, "but if there does seem to be a great danger of it he (Wallace) will get the vote of the peace loving people—the ones with sons."

In the past Farley has had some success at doing out the voting temper. The election is still more than four months off, and any

thing can happen, especially abroad. Could be that Truman has the same idea.

Boyle's COLUMN

BY HAL BOYLE

NEW YORK — The children have a fair argument against the grown-up in America.

The kids are compelled by law to go to school to learn what the adults want to teach them. But there is no law to make the grown-ups go to a school and learn from the children. Yet there is much they could learn from the diaper-and-knickertocker set.

Every body in America, for example, might live longer by studying the lesson unintentionally given by two-year-old Kenneth Liebman of the Bronx. This bouncing boy tumbled out of his apartment window the other day, fell six floors, landed on the lawn with a dull thud and a small grunt—and got up and waddled of unhurt. He didn't even give a whimper of complaint.

HOW DID HE escape injury? Because he was relaxed, as all normal children in normal homes are.

But if little Kenneth should have a similar accident thirty years from now, after civilization had gone to work on him, what would happen? He would see death grinning up from the ground at him, his muscles would tighten in fear against the shock, and he'd be picked up in the same condition as a shattered pretzel.

Only a few adults keep this life-

saving virtue born in every child—the art of relaxation.

Most champions do. And that is one of the big secrets of why they are coordinated because they have the priceless gift of relaxing in the middle of action. That's true of a racehorse like Citation, as it was of Charlie Schwab closing a multi-million dollar steel order. Or of Babe Ruth, with two strikes on him in a World Series game, pointing to the bleachers and knocking the next ball for a home run right where he'd called it.

It's hard to win a wife or a golf match with a worried look. It's hard to win any game when you're fighting yourself as well as the other fellow. And you are fighting yourself when you forget to relax and worry divides your mind with self-doubt and fear.

A dog is worried only when he doesn't have a bone to worry. Man, on the other hand, worries even if he has everything he needs to keep him from worry. He worries because he is afraid he can't keep what he has forever.

Tension kills more people in the United States than anything except over-eating. And over-eating, in millions of cases, is nothing but a

nervous expression of tension. They actually worry themselves fat at the dinner table.

WORRY IS THE most contagious disease yet untamed by science, a world-wide plague spread by a bacillus invisible to any microscope ever invented—fear.

Most tension is useless and needless.

Yet people who genuinely want to stay alive in the earth's garden are shortening their stay by tearing down their nerves and arteries fretting over a war that hasn't started, the better job they haven't got, the baubles they wear themselves out to get and would be better off without.

Anybody who owns too many possessions ends up by being owned by them. Fears are the only thing that multiply faster than rabbits. A person who is afraid of one thing is likely to become afraid of many things.

Worry upsets you. Worry is just your insides stirred up and mad at you. A light heart beats the longest. If you tell a baby to worry, he will just yawn and fall asleep. So should we all.

An hour more of sleep each night by everybody would destroy more nervous tension than all the pills or booze in all the bottles ever blown. And you'd get to work on time—there's one more worry gone.

It's the '49 FORD

It's The Car of the Year!

■ Tomorrow's the day! Yes, it's the day the '49 Ford, "the car of the year," goes on display at Ford Dealer showrooms coast to coast!

There never was an automobile like this before. It's a complete break with the past. It was designed by you... because you told Ford in letters, surveys and personal interviews just what you wanted. And tomorrow, it's here. It looks like a luxury car, but it sells in the low-price bracket.

Just for the thrill of it, look at the list of new features. And for an even bigger thrill—your biggest thrill of the year—see the '49 Ford, "the car of the year," at Ford Dealer showrooms tomorrow.

Here tomorrow at your Ford Dealers!

- NEW** You wanted ROOM. So Ford gives you sofa-wide seats, with lots of hip and shoulder room... and 57% more luggage space, too.
- NEW** You wanted SAFETY. So Ford gives you a 59% more rigid "Lifeguard" body and frame structure, 35% easier "Magic Action" King-Size Brakes, and new "Picture Window" Visibility all around.
- NEW** You wanted COMFORT. You get COMFORT... in a new "Mid Ship" Ride... new "Hydra-Coil" Front Springs with shock absorbers built in, new "Para-Flex" Rear Springs, which need no lubrication.
- NEW** You wanted ECONOMY. New V-8 and SIX engines have new lubrication system, new "Econo-Flo" Cooling and "Deep Breath" Manifold. Savings up to 10% on gas. (Even greater savings with new Overdrive, optional at extra cost.)
- NEW** You wanted BEAUTY. Well, see for yourself. You, too, will call Ford "the car of the year!"

White side wall tires, as illustrated, optional at extra cost.

American Capital Dipping Into Philippine's Mining

BY JAMES J. HALSEMA
MANILA, June 17—American capital, keeping a leary eye cocked for adverse political developments, is dipping a cautious foot into the Philippine mining business.

After three years of hesitation several New York firms specializing in speculative investments are reported making contacts with island mining companies.

Philippine mines need capital and plenty of it. Existing mines were with a few exceptions almost totally destroyed during the war. Getting new mines started far out in the mountains and jungles is an expensive process.

Philippine mines prewar produced gold, silver, iron, copper, manganese and chrome. With gold still selling at \$35 per ounce in the official U. S. market and costs up 300 per cent compared to 1941 gold has lost much of its glitter.

(The Manila black market pays from \$43 to \$48 an ounce to get gold for Chinese hoarders but no one knows how long this happy state of affairs will last). But base metals prices are booming under the impetus of Marshall plan buying and at last one large New York syndicate has staked a small fortune on a gamble that the official gold buying price will be raised within the next 18 months.

A group of wealthy sugar growers from the central island of Negros began entering the mining field in the late 1930s when further expansion of the sugar industry was halted by the Philippine Independence act.

Recently this group secured control of the atok and big wedge mining companies and merged them to form a new corporation. This firm owns the highly profitable big wedge mine near Baguio, adjacent to Benguet consolidated, and is looking over the list of war wrecked mines elsewhere in the Baulo district and the Philippines for possible operating contracts or outright purchase. Leading figure in this group

is Placido Mapa, the republic's new secretary of commerce.

The Barney Balaban-Rosenwald family interests of New York, Newmont Mining company, Guggenheim family, and Freeport Sulphur Inc. have at various times sent engineers to look over the local field.

At least one of these groups is now actively prospecting the most likely prewar properties on a 10 per cent gross owner royalty basis, common in California but new to the Philippines.

Outside capital, while looking favorably on the administration's announced policy of encouraging the mining industry, has been disturbed by ultra-nationalistic statements made in the Philippine congress and by the international situation.

A few island mines have been rehabilitated with their own prewar

resources. Bank loans have been granted only in cases where substantial amounts of marketable ore were ready for shipment and could be used as collateral. The Philippine government through its rehabilitation finance corporation lent one mine \$375,000 for its reconstruction but in this case the firm was controlled by persons close to the administration.

In many Mindanao Mother Lode Mining Company, controlled by American local capital, secured the first postwar listing of a Philippine stock on the San Francisco stock exchange.

Sight Planes Believed Missing Over Corsica
AJACCIO, Corsica, June 17—Two Flying Fortresses, believed to be part of a three-plane flight reported missing on a trip from the Azores to Palestine, landed here today for refueling and took off again.

The French officials at Ajaccio

could not say definitely whether the planes were the one reported missing.

SEEKS HIGHER RATE SCHEDULE
COLUMBUS, June 17—The Chillicothe Telephone Company asked the State Utilities commission today for authority to life a new rate schedule involving rule changes

that would mean increases to some of its subscribers.

The company claimed there is insufficient difference between the charges for service to single and two party lines, and two and four party lines.

The commission's accountants and engineers will investigate the proposal before a date for a hearing is set.

The changes would effect the company's Chillicothe and Bourne-

ville offices operating in Ross, Pickaway, Pike and Vinton counties.

SEEK AID MONEY FOR NEW SCHOOLS
WASHINGTON, June 17—Senate backers of a bill providing another \$6,000,000 in federal aid to schools having excess enrollment as result of war and defense activities sought today to squeeze the bill onto the crowded calendar.

The assistance would represent continuance of a program begun during the war under the Lanham act. The extension measure passed the house yesterday.

House sponsors of the bill pointed out that the bureau of community facilities shows estimated needs for the 1948-49 year to be \$6,417,183.

The bureau's estimates indicate that 157 schools including seven in Ohio, require federal help to carry their load in the coming school year.
